Professional Summary

Computer Engineering graduate skilled in Python, JavaScript, and front-end development with experience in API integration and independent software projects. Strong problem-solver focused on building effective, innovative solutions in software development or IT operations.

Experience

- **Pru Life UK**   *On-the-job Training, 2023*
  - Streamlined and maintained client databases, enhancing data accuracy, integrity, and confidentiality to support secure business operations.

Projects

- **Trivia Quiz Game**
  - Developed a dynamic trivia quiz game with category selection, real-time answer validation, and score tracking using HTML, CSS, and JavaScript.
  - Live Demo: https://sol-anzh.github.io/trivia-quiz-project/)
  - GitHub Repo: https://github.com/Sol-Anzh/trivia-quiz-project
- **Dictionary Application**
  - Built a dictionary application using Python and a public API, showcasing API integration and GUI development with CTkinter.
  - GitHub Repo: https://github.com/Sol-Anzh/dictionary-app

Technical Skills

- **Programming and Markup Languages**: JavaScript, Python, HTML, CSS, SQL, PHP
- **Frameworks and Libraries**: React
- **Tools and Platforms:** Git, GitHub, Visual Studio Code

Soft Skills

- Problem-Solving, Detail-Oriented, Critical Thinking, Adaptability, Collaboration

Certifications

- Computer System Servicing NCII (TESDA)
- Introduction to Python (Sololearn)
- Introduction to SQL (Sololearn)
- Full-Stack Development (Mimo)

Education

- **University of Rizal System**   *2019-2024*
  Bachelor of Science in Computer Engineering

Academic Achievements

- With High Honors   *2018-2019*
- 6th Honor   *2016-2017*

Organizational Involvement

- **The BEACON Publication (Head Artist)**   *2023-2024*
